

# DIRECTIONS

## To Cut 2-1/2" Strips:

1. Fold fabric selvage to selvage.
2. Lay Shape Cut™ Pro on fabric with raw edges extending slightly beyond vertical slot marked "0" and bottom fold of fabric at horizontal line marked "0".
3. Square up left edge of fabric by inserting blade of cutter in slot marked "0" and cut.
4. Create strips by cutting in each subsequent 2-1/2" slot.

## To Create Jelly Rolls:

1. Fold fabrics selvage to selvage. Layer up to 8 different fabrics.
2. Square up fabric and cut strips per instructions for cutting 2-1/2" strips.
3. Lift ruler and stack desired number of strip sets on top of each other, aligning folds and raw side edges.
4. Beginning with selvage edges, roll strip stack to create "Jelly Roll".

TIP: For best results, lift stack of strips off work surface and allow to hang once the roll has been started.

## To Create 5" Squares:

1. Follow instructions for cutting 2-1/2" strips, EXCEPT cut in every other slot (5, 10, 15 and 20) to create 5" strips.
2. Keeping cut strips intact, lift Shape Cut™ Pro and turn 90°. Make sure fabric extends beyond vertical 0 and 20 slots and is aligned with bottom "0" marking.
3. Cut in every other slot beginning with "0".

## To Create Charm Square Pack:

1. Layer up to 8 folded fabrics on cutting mat.
2. Cut 5" squares per previous instructions.
3. Stack square sets on top of each other to achieve desired number for packs.
